## **For Immediate Release**

September 9, 2015

### **Ladies Night Event Offers Free Expert Advice for Tackling Home Projects**

**Riverhead Building Supply and local radio hosts team up to present an  
informative and entertaining evening showing home repairs and improvement.**

*(MIDDLETOWN, RI, Sept. 9, 2015)* Home projects and repairs are easier to manage and go more smoothly when you have the right tools and some insider tips. On Thursday, September 24, from 6 – 8 pm, Riverhead Building Supply is hosting a Ladies Night event that will feature top techniques for some basic home repairs, and a make-and-take project using reclaimed wood from Heritage Wide Plank Flooring. Local radio hosts from 92 PRO FM and Lite Rock 105 will be on hand to help attendees.

Savor your art, and spare your walls from damage by using Riverhead Building Supply's best techniques for marking, leveling and hanging your décor. At Ladies Night, you'll learn the right types of hardware to use to support wall hangings and prevent damage to wall finishes. You'll also find out how easy it is to change door hardware for a chic style update or home security upgrade. Take a tour around the store for tool box essentials and handy time-savers that will make everything easier. Riverhead Building Supply has come up with a convenient list they will share of online apps and home improvement sites from around the web. These online tools make it easy to envision how your home will look with, for example, a different color roof, new siding, a new style front door, or your dream deck.

"Ladies Night is an invitation to the women in our community to come in, look around, relax and enjoy our store and showroom. We hope they'll discover new products and projects they want to try out, and new upgrades for their homes. A home is an investment, and we have

everything that is needed to keep yours in top shape,” said Chris Kowalsick, General Manager of the Middletown location.

Earlier this year, Lite Rock 105’s 2 Lite Chicks, Amy and Heather, visited the store to try out some power tools to prepare for Ladies Night. See videos of their test drives at [www.myrbscorp.com/ladies-night](http://www.myrbscorp.com/ladies-night). Amy and Heather will return on September 24 to add their new tool handling knowledge to the live demonstrations. 92 PRO-FM hosts Kim, Jessica and Barbi Jo will also join the hands-on demonstrations to complete projects.

Registration for the event is just a click away at [www.myrbscorp.com](http://www.myrbscorp.com). The event is free and is expected to last about 2 hours, from 6 – 8 pm. Refreshments will be offered, and all attendees will have an opportunity to make a rustic home décor project to take home. Complete information, including photos and video from a prior event, is online on the company’s event page, [www.myrbscorp.com/ladies-night](http://www.myrbscorp.com/ladies-night).

###

Riverhead Building Supply is the building materials supplier of choice for general contractors and home builders in Rhode Island and Southeastern Massachusetts. The company has 2 stores that each include a Design Showroom with full size displays of kitchen cabinetry, countertop materials, architectural hardware, Heritage Wide Plank Flooring & Millwork, moldings and more. Locations are at 6000 Post Rd. in North Kingstown and 1400 West Main Road in Middletown.
